

BUILDING LEGAL TERMINOLOGY DATABASES WORKSHOP

ONLINE, WITH ENGLISH INTERPRETING

1 FEBRUARY 2022

9:30–11:30

The workshop aims to bring together lawyers, terminologists and linguists who have experience with building legal terminology databases and search tools. The workshop centres around the following questions: what is special about legal terminology that must be kept in mind when building a terminological database? What types of skills must the team working on the legal terminology database possess? What are the different approaches to constructing the database? Which main principles must be observed? Who are the target groups of the database and how does this affect the database's structure?

PANEL PARTICIPANTS

Dóra Mária Tamás

OFFI, Justerm

The impact of legal terminology on the editing of terminological databases

Réka Somssich - Endre Gáspár
